

5

REASONS TO USE A GAMIFIED LMS FOR TRAINING

1 BOOST ENGAGEMENT

Students and employees enjoy gamified elements such as earning points, leaderboards, and badges because they make learning more enjoyable and drive participation.

2 MOTIVATION AND GOAL TRACKING

We're constantly adding new features, we support many industry standards and we integrate with a wide variety of systems such as Google Docs, LDAR Calendars (iCal), and SMTP/POP3.

3 IMPROVE KNOWLEDGE RETENTION

With gamification, training is more engaging and the level of information retention is increased. Employees are much more likely to remember what they are taught because they are more involved in the process.

4 PROMOTE TEAM BUILDING

Use a gamified LMS to enhance collaboration, communication, and knowledge-sharing between users by providing them with an outlet to connect socially and contribute content.

5 VALUABLE FEEDBACK

A gamified LMS allows you to easily track the performance of your students and employees and get real-time feedback about how they're learning and developing skills as they progress in their training.
